KIDS DEFEAT COPS IN SHOOTOUT

For the eighth straight year, Moorhead area youth took to the ice to play area law enforcement in a friendly exhibition hockey game. It took a tense five round shootout, but in the end, for the eighth straight year, the Kids earned an 8-7 victory.

This annual event features Moorhead Peewee's, Bantams, U-12 girls and U-14 girls versus Moorhead area law enforcement in an event designed to encourage positive interaction between police and youth in the community. While the game is fun and there is plenty of joking going around, this year took on a more competitive edge and the game was back and forth the whole time.

In the last eight years, over 200 kids have participated in this event. Several people and organizations donated time, money and goods to this event. The list is too long to mention everyone, but their generosity is greatly appreciated. All proceeds from the silent auction and chuck-a-puck held during the game went to the Moorhead Police Explorer Post and the Moorhead Youth Hockey Association. Moorhead Public Service and Minnesota Fraternal Order of Police Lodge 8 were the sponsors of this event.

Next year's shootout will be held on January 25 5:30 pm at the Moorhead Sports Center. Admission is free!

FLOOD INFORMATION

Floodplain Website

The City's floodplain information webpages cover topics such as preparation and recovery, flood insurance, floodplain maps, floodplain permits, and flood mitigation projects.

Emergency Preparation

Being prepared for a flood will not only help keep your family safe, but also help minimize potential flood damage and accelerate recovery efforts. In addition to purchasing flood insurance, you can protect your family and safeguard your home and possessions by developing a family disaster plan and by understanding your flood insurance policy.

Family Disaster Plan

- Identify the types of hazardous that could affect your family.
- Locate a safe room or the safest area in your home for each hazard.
- Determine escape routes from your home and places to meet.
- Have an out-of-state friend as a family contact so all your family members have a single point of contact.
- Make a plan for what to do with your pets should you need to evacuate.
- Post emergency telephone numbers by your phones and make sure your children know how and when to call 911.
- Check your insurance coverage. Flood damage is not covered by homeowners insurance. Only flood insurance covers floods.
- Stock non-perishable emergency supplies and a Disaster Supply Kit.
- Take First Aid, CPR, and disaster preparation classes.

Additional Information

More detailed information regarding flood related issues are available at

- www.cityofmoorhead.com
- Moorhead Floodplain Information **218.299.5387**
- 2121 28th St N – Wastewater Treatment Facility
- www.floodsmart.gov

Property Information

Lenders, Insurance Agents, Realtors, and citizens can call **218.299.5387** and speak with the City's Floodplain Manager to obtain information on whether a property is or is not within the Special Flood Hazard Area (SFHA).

Interactive GIS mapping tools are also available on the City's website.

- FEMA FIRM (Flood Insurance Rate Map) effective April 17, 2012
- Flood Stage Information
- Aerial photos of the 1997 and 2009 flood events

The Engineering Department maintains FIRMs, Letters of Map Amendment, elevation certificates, and other flood related information.

Elevation Certificate

Elevation certificates are available for some properties within the City. If the City does not have an elevation certificate on file, the services of an engineering consultant will be needed.

Flood Insurance

Only flood insurance covers floods. Talk to your insurance agent to ensure that you have adequate coverage. There is a 30-day waiting period before flood insurance coverage becomes effective. Plan ahead, and don't wait until a flood is predicted before purchasing flood insurance.

What are Biosolids?

They are nutrient-rich organic materials resulting from the treatment of domestic sewage in a treatment facility. These residuals are recycled and applied as fertilizer to improve and maintain productive soils and stimulate plant growth. The Wastewater Treatment Facility is also working on new ways to reduce the volume of biosolids produced at the facility.

- 337 acres received biosolids
- 1.5 million gallons of applied biosolids
- Nutrients include nitrogen, phosphorus, potassium, copper and zinc

SIDEWALKS AND SNOW

When the snow flies

Winter will be here before we know it! For the safety and convenience of the many people using our city sidewalks each day, including school children, mail and newspaper carriers, walkers, and runners, please take a moment to familiarize yourself with the City's snow removal requirements:

- Sidewalks and driveway approaches must be cleared of snow and ice by 9 pm once the snow has stopped.
- Clear the entire sidewalk and the driveway approach of snow and ice.
- If you live on a corner, sidewalks must be cleared on both sides, including the crosswalk approaches.
- Do not shovel snow onto neighboring properties or into the street.
- Do not blow snow beyond your own yard.
- Make arrangements with a neighbor or a snow removal service to care for your property if you are going to be on vacation or are otherwise unable to shovel your sidewalk in a timely way.
- Help your neighbors with snow removal when they are out of town or when health issues become an obstacle.

Inspectors will leave a notice at the property when sidewalks are not cleared in a timely way. The notice will have a compliance timeline. If the sidewalks are not cleared by the compliance date, the City will hire the snow removal and the property owner will be charged for all costs.

Plan for snow removal in advance to avoid these costs and keep sidewalks clear for the public.

WINTER SAFETY TIPS

CANDLE WITH CARE

December is the peak time of year for home candle fires.

- Blow out all candles when you leave the room or go to bed.
- Don't use candles in the bedroom where people may fall asleep.
- Keep candles at least 12 inches away from anything that can burn.
- Use candle holders that are sturdy and won't tip over easily and place on a stable, uncluttered surface.
- Light candles carefully. Keep your hair and any loose clothing away from the flame.
- Don't burn a candle all the way down — put it out before it gets too close to the holder or container.
- Never use a candle if oxygen is used in the home.
- Have flashlights and battery-powered lighting ready to use during a power outage; Never use candles.

Heating Safety Tips

- Keep combustibles at least three feet away from heating equipment.
- Only use heating equipment approved by a recognized testing laboratory.
- Never use your oven for heating.
- Maintain heating equipment and chimneys by having them cleaned and inspected annually by a qualified professional.
- Turn portable heaters off when leaving the room or going to bed.
- For fuel burning space heaters, always use the proper fuel.
- Make sure the fireplace has a sturdy screen to prevent sparks from flying into the room and burn only dry, seasoned wood. Allow ashes to cool before disposing in a metal container, which is kept a safe distance from the home.
- For wood burning stoves, install chimney connectors and chimneys following manufacturer's instructions or have a professional do the installation.
- Make sure all fuel-burning equipment is vented to the outside to avoid carbon monoxide poisoning.
- Install and maintain carbon monoxide (CO) alarms to avoid the risk of CO poisoning.
- Test smoke alarms at least monthly.

If you need another copy, stop by the Moorhead Sports Center, City Hall, Moorhead Center Mall, Moorhead Library, or the Fargo-Moorhead Convention and Visitor's Bureau to pick one up.

Fall Golf Special

The days are getting shorter, but there is still lots of great golf weather left in the season! Beginning September 22, pay for 9 holes and play 18 at either Village Green or The Meadows. Valid on adult green fee rates only, no carts. The golf courses will be open through October 31. One course will remain open into November, weather permitting. Go to www.moorheadgolf.com for updates toward the end of the season.

CARBON MONOXIDE

Carbon monoxide is an odorless toxic gas that is impossible to see, taste or smell. It can kill you before you are aware it's there. Symptoms of CO poisoning include headache, dizziness, disorientation, nausea and fatigue.

What to do if my CO alarm goes off...

If no one is feeling ill:

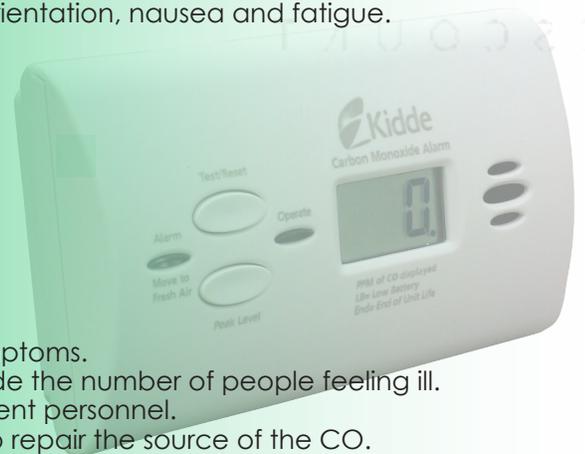

- Silence the alarm.
- Turn off all appliances and sources of combustion.
- Ventilate the house with fresh air.
- Call the Fire Department at **218.299.5432** or dial **911**.

If illness is a factor:

- Evacuate all occupants immediately.
- Determine how many occupants are ill and determine their symptoms.
- Call 911 and when relaying information to the dispatcher, include the number of people feeling ill.
- Do not re-enter the home without the approval of Fire Department personnel.
- The Fire Department will advise you if you need a professional to repair the source of the CO.

Protect Yourself and Your Family from CO Poisoning

- Install at least one carbon monoxide alarm with an audible warning signal near sleeping areas and bedrooms.
- Have a qualified professional check all fuel burning appliances, furnaces, venting and chimney systems at least once a year.
- Never use your range or oven to help heat your home and never use a charcoal grill or hibachi in your home or garage.
- Never keep a car running in a garage, even if the garage doors are open.

Curbside Collection:

Garbage carts and recycling containers should be placed at the curb the night before or by 5 am on your collection day to ensure pickup. Garbage carts should be placed within 4 feet of the curb line, and at least 2 feet from any obstacle to include snow banks. Do not place garbage carts or bags on top of snow banks.

Refuse Bags:

If a household has more garbage than will fit within the automated cart, it must be placed in a City of Moorhead prepaid yellow refuse bag that is imprinted with the City of Moorhead logo. These bags are available at many local grocery and retail stores. The expense of purchasing the bags includes the cost of collection and disposal.

Storage of Garbage Carts:

Store your garbage carts in an enclosed building or out of view of the public right-of-way once collection has been completed.

Please note: In order to pick up two routes, we start post-holiday garbage collections very early, so please place garbage carts and recycling containers on your curb by 4 am on the day following the designated holiday to ensure pickup.

Holiday Collection Schedule Reminder:

There are 9 designated holidays when garbage is not collected:

- New Year's Day
- Martin Luther King, Jr. Day
- President's Day
- Memorial Day
- July 4th (Independence Day)
- Labor Day
- Veterans Day
- Thanksgiving Day
- Christmas Day

On these designated holidays, your garbage will be collected the day after your regular collection day. For example, when a holiday falls on a Monday, Monday and Tuesday routes will be collected on Tuesday and no other routes will be affected. Similarly, when an official holiday falls on a Friday, Friday routes will be collected the following Monday and no other routes will be affected. Exceptions: When a holiday falls on a Saturday, there will be no collection on the preceding Friday. When a holiday falls on a Sunday, there will be no collection on the following Monday.
