Request is for: _____(number) **Additional Streetlight(s)**

Specify location and reasons for installation of an additional streetlight(s):

DATE _____ **SIGNATURE** _____

(City Use Only)

Streetlight Committee Recommendation: _____

Neighborhood Notification (date) _____

Council Action: _____ **Approved** _____ **Rejected** _____ **Date**

The following is the Residential Streetlight Policy, as adopted by the Moorhead City Council on October 6, 1997 (Resolution #97-1002-J), for the City of Moorhead.

One streetlight shall be installed at every street intersection

One streetlight shall be installed within 150 feet of the end of every dead-end street.

One streetlight shall be installed on the radius of every cul-de-sac.

Streetlights shall be a maximum of 600 feet apart.

Streetlights shall be a minimum of 300 feet apart, except as required to light intersections, curves, dead-end streets or cul-de-sacs.

Streetlights shall be installed near curves of streets such that the nearest light around the curve is on a straight line that does not intersect the street right-of-way line.

Streetlights may not be installed contrary to the above specifications unless so ordered by the City Council.

The size of lighting shall be 100-watt minimum high-pressure sodium (or 9,000 lumens minimum). The City Council may order a higher level of lighting on main thoroughfares.

When an additional streetlight is requested in an already established residential area, a petition will be requested from adjacent property owners. In general the petition will be requested from owners half the distance between the proposed streetlight and existing lights on both sides of the street.

The attached petition/request form is to be returned to Moorhead Public Service, P.O. Box 779, Moorhead, MN 56561-0779.
